Hello!

Dear Students:

Hello future 4th graders, and welcome to my class! I am very excited to meet all of you. I hope you are as eager as I am to start the school year in fourth grade (after a well-deserved summer of course).

As a teacher there are a few things to know about me: I truly believe in a "classroom community" that values respect, and where we can all feel successful. I believe in laughter while we learn, looking on the bright side, and putting in your best effort. Mostly, I want to assure you that it will be a year full of fun, hard work, and some laughs.

Fourth grade is going to be a wonderful time that is full of many exciting activities. You will have the chance to play an instrument this year, run for student council and learn new technology. We will learn division and fractions in math. In reading and writing we will read interesting stories and stretch ourselves to add content. Lastly, we will travel to new regions across the United States and participate in many fun science experiments.

I can't wait to experience the year in fourth grade along with you. It is going to be fun! But...don't forget to relax and enjoy your summer first!

Sincerely,

Mrs. Treude
