

boys team charity Launches First-Ever Pennsylvania League in Central Bucks, Empowering Boys Through Family Volunteerism

What is boys team charity?

Founded in 2002 in Arizona, boys team charity was created to help young men grow into compassionate, engaged community members—by volunteering side-by-side with their parents. Since then, it has grown to include over 12,000 members in 10 states, who collectively contribute more than 100,000 service hours each year.

Each btc member family consists of a “Coach” (parent or guardian) and a “Teammate” (7th–12th grade boy) who volunteer together with local nonprofits. From supporting food banks and senior centers to helping veterans, animal shelters, and children’s programs, btc partners with a wide range of organizations to serve the diverse needs of each community.

In addition to hands-on volunteer work, boys build friendships and develop essential life skills through leadership opportunities, guest speaker events, and team-building activities throughout the year.

“It made me feel so good to see the kids smile as they chose their “Back to School” items. They started out scared, but we helped them feel like it was fun.
— Daniel, 8th grade

Now Recruiting Families for Board Leadership and Membership for 7th –12th Grade Boys

This summer, boys team charity (btc)—the nation’s leading parent-son service organization—is launching its first Pennsylvania chapter in Central Bucks, offering local families a powerful way to serve together.

btc is now actively recruiting boys entering grades 7 through 12, along with their parents or guardians, to co-found and lead the Central Bucks chapter. Early members will play a defining role in shaping the future of this initiative in our region while making a meaningful impact together.

Why Join Now?

This is a rare opportunity for Central Bucks families to:

- Be part of the founding leadership team and help build this community -focused chapter from the ground up. Make a lasting difference together in the lives of those across our region.
- Connect with like-minded families who share a passion for service, mentorship, and giving back.

Whether you’re looking to model community service for your son, grow closer as a family, or create something impactful in Central Bucks, btc offers a way to do it all together.

The best part of btc this year was working with my Dad to fix up bikes for families that didn’t have any. We had fun together and the kids were really happy to get a new bike!

— Robbie, 9th grade

We are looking for Leaders like you to be part of our Leadership Board!

We’re seeking mission-driven parents and guardians ready to co-create something lasting. If you’re passionate about service, mentorship, and community impact, we want to hear from you.

No experience required, just a heart for service and a desire to build something meaningful.
